## ENTERPRISE COMPLIANCE MANAGEMENT (ECM)

**RELIABLE & LEGALLY COMPLIANT**

*Software for professional compliance management  
across all your industrial, EHS and facility  
management processes*

## CORE FUNCTIONS AT A GLANCE

Are you a compliance manager delivering compliance with statutory regulations and standards or an operations engineering professional responsible for the management of technical facilities?

Or are you in charge of facility management or tasked with ensuring compliance with environment, health and safety regulations?

If so, WeSustain's „Enterprise Compliance Management“ solution along with our partners' products and services is the kind of dependable, high-performance software you need.

### Planning & management

Plan, manage and monitor compliance with operator requirements across your installations and facilities as well as your inspection and maintenance measures using a collaborative task management system. Our library of legal obligations lets you check reliably which requirements you need to meet.

### Data management

Record your processes and data reliably and transparently in an operating log. Link your plants and facilities with the relevant regulations in your customised legal register, which our system updates automatically.

### Evaluations & reporting

Keep a transparent record of your operator obligations and manage your maintenance and inspection logs (including defect follow-up). Generate proof of compliance for audit readiness.

## KEY BENEFITS

- ✓ Rely on **software, content & consulting expertise** from WeSustain and partners
- ✓ **Time- and cost-efficient** compliance with operator obligations
- ✓ **Reliable, legally sound** management of compliance processes
- ✓ **Operations-specific and compliant** structure mapping
- ✓ **Reliable, always up-to-date** legal register
- ✓ **Central, transparent and audit-ready** documentation of EHS data
- ✓ **Quick and easy** identification of operator obligations

WeSustain offers you a smart software that supports EHS process planning and monitoring across all your installations and facilities, complete with simple and reliable documentation capabilities.
