# ENTERPRISE SUSTAINABILITY MANAGEMENT (ESM)

**EFFICIENT & PERSONALISED**

*Powerful professional management software to put  
your business on the right sustainability track*

## CORE FUNCTIONS AT A GLANCE

---

Are you a CSR or sustainability manager tasked with ownership and management of key areas of sustainability within your organisation?

Are you legally required to file CSR reports or are you planning to report voluntarily and continuously on your progress?

If so, WeSustain's „Enterprise Sustainability Management“ solution is a powerful software you can rely on.

### Planning & management

Plan and manage your sustainability activities and goals through a browser-based interface. The software includes flexible modules for materiality assessments, transparent stakeholder management, professional carbon management, and plenty more besides.

### Data management

Record sustainability data collected at distributed locations on a single system and have it checked automatically for plausibility. Consolidate and track your data in functional, well-designed dashboards.

### Evaluations & reporting

Run comprehensive, automated evaluations and analyses on your aggregated sustainability data to prepare internal and external reports. You can work with a variety of built-in standards, including GRI, DNK and the SDGs, all of which are updated automatically.

## KEY BENEFITS

- ✓ Highly **effective, optimised** and **transparent** sustainability management
- ✓ **Time- and cost-efficient** activity management
- ✓ **Collaborate** with relevant stakeholders
- ✓ **Intuitive and easy to use**
- ✓ Fits your **unique processes and workflows**
- ✓ Automatically validates input for **better data quality**

Put an end to working with complex, error-prone Excel sheets: With WeSustain you get a smart software that combines decentralised sustainability management with dependable data collection and automated evaluations for use in reports.

# WeSustain's software solutions for responsible business management
