IMPACT MANAGEMENT

TARGETED & TRANSPARENT

*Professional software for transparent impact management
throughout your impact chain*

CORE FUNCTIONS AT A GLANCE

Are you as a CSR or sustainability manager ready to take the next step by measuring your organisation's and projects' social and economic impacts?

If so, WeSustain's „Impact Management“ solution offers you the kind of powerful and exceptionally efficient IT infrastructure you need.

Planning & management

Plan and manage your global projects and campaigns at both corporate and location level across the whole of your impact chain in a single, central system. Expedite teamwork globally with collaborative workflow processes.

Data management

Record and monitor data on material impacts at project level and across different years and locations using indicator sets and built-in standards like the IOOI logic model.

Evaluations & reporting

Analyse your project impact chains and conduct software-assisted surveys among key stakeholders. Evaluate your impact data for internal and external reporting in line with the SDGs or other standards.

KEY BENEFITS

- ✓ **Impact-** and **fact-driven** management decisions
- ✓ **Time-** and **cost-efficient** management of your global projects
- ✓ **Collaborative** workflows for internal and external stakeholders
- ✓ Flexible to adapt to your **individual requirements**
- ✓ **Reliable data management** for greater impact
- ✓ **Quick and easy** creation of internal and external reports

It's time to retire your Excel spreadsheets: With WeSustain's software solution you'll find that measuring and managing the impacts of your projects has never been easier.

WeSustain's software solutions for responsible business management

Smart, powerful and collaborative
